### **Instructions**

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer all questions.
- Answer the questions in the spaces provided
  - there may be more space than you need.
- Calculators may be used.
- You are advised to show all your working out with your answer clearly identified at the end of your solution.

### Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
  - use this as a guide as to how much time to spend on each question.

### **Advice**

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.
- Good luck with your examination.

Just 30 years ago, Ghana was in crisis with high levels of poverty and on the edge of economic collapse. The West African nation has made a significant recovery and was predicted to be the world's fastest growing economy in 2019.

The International Monetary Fund (IMF) estimates Ghana's Gross Domestic Product (GDP) growth rate of 8.8% will be double that of emerging economies, and well ahead of world growth rates. Ghana is one of the world's largest cocoa producers. Its growth is now being maintained by a different commodity, the extraction of crude oil.

4 Figure 4 shows the amount of foreign direct investment (FDI) India received from 2016–2019.

| Year | FDI (\$bn) |
|------|------------|
| 2016 | 45.14      |
| 2017 | 55.55      |
| 2018 | 60.98      |
| 2019 | 64.37      |

In January 2019, the Indian Government approved new legislation that improved and simplified its policy on foreign direct investment (FDI). This helped to attract more multinational corporations (MNCs) to the country.

In 2019, India ranked among the top 10 economies benefitting from FDI. The overall growth of FDI in India was due to its many resources. These include a high degree of specialisation in services and a skilled, English-speaking, low-cost labour force. India also has a potential market of over one billion people.

FDI in India has been focused on chemicals, computer software and hardware, telecommunications, the automobile industry, construction, power and pharmaceuticals.
