## Paper 1R

Thursday 25 May 2017 – Morning  
**Time: 1 hour 30 minutes**

Paper Reference

**4MB0/01R**

**You must have:** Ruler graduated in centimetres and millimetres, protractor, compasses, pen, HB pencil, eraser, calculator. Tracing paper may be used.

Total Marks

### Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided  
– *there may be more space than you need.*
- **Calculators may be used.**

### Information

- The total mark for this paper is 100.
- The marks for **each** question are shown in brackets  
– *use this as a guide as to how much time to spend on each question.*

### Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.
- Without sufficient working, correct answers may be awarded no marks.

14 A bag contains 6 black discs and 4 white discs only.

Jasmin takes at random a disc from the bag and records the colour of the disc.

If the disc is black, she replaces the black disc in the bag.

If the disc is white, she does not replace the white disc in the bag.

Jasmin now takes at random a second disc from the bag and records the colour of the disc.

Calculate the probability that Jasmin records one disc of each colour.
